

Remarks

Claims 5-7, 10 and 12-33 are pending in this application. Claims 6, 7, 10, and 23 have been amended in various particulars as indicated hereinabove.

Claims 5-7, 10, and 12-33 were rejected under 35 U.S.C. 112, second paragraph, a being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Specific concerns were articulated with respect to claims 7, 10, and 23. These have been addressed in the foregoing amendments. Specifically, the descriptions related to controller registration and controller call maintenance were amended based on the comments of the rejection.

Withdrawal of these rejections is now requested.

Claims 7, 10, and 23 were objected to because of informalities. The suggested improvements have been made.

Applicant notes with appreciation the indication that claims 5-7, 10 and 12-33 would be allowable.

Other minor changes have been made to the claims and the specification to improve wording and correspondence between the claims and specification.

It is believed that the present application is in condition for allowance. A Notice of Allowance is respectfully solicited. Should any questions arise, the Examiner is encouraged to contact the undersigned.

Respectfully submitted,
